Weight without access. (kg)	7
Dimensions (L x W x H) (mm)	370x290x470

Hard floor and carpet cleaner

SE 2001

Details

Description

Carpets can become unsightly with time despite daily vacuuming. Soiled areas and stubborn stains cannot be cleaned with a conventional vacuum cleaner. Kärcher multipurpose vacuum cleaners can do the job without having to use the services of a specialist. So-called 3in1 or spray extraction vacuum cleaners such as the Kärcher SE 2001 are designed for cleaning carpets deep into the pile. They are also ideal for cleaning stone and tiled floors as well as linoleum. Compared to conventional cleaning methods, the Kärcher SE 2001 offers a significant advantage: it uses only clean water straight from the fresh water tank. The dirty water is collected separately. Unlike cleaning with a sponge and bucket, the dirty water does not come into contact with the clean water. In this way, the dirt is not distributed, but effectively removed. The SE 2001 has a deep cleaning action and is easy to use. Features include a flat pleated filter, filter shake-out system and filter status indicator.

Application

Cleaning carpets and hard surfaces Cleanups in hobby workshop, garden, car and home Picking up coarse dirt Picking up liquids

Features & Benefits

Accessory holder Accessories are neatly stowed away and ready to use Compact lightweight construction Functional, easy to stow away in a minimum of space Container made of recyclable polypropylene with two large wheels and two swivel castors Large capacity (18 litres), impact resistant, stable, simple to empty and clean, follows user smoothly, highly manoeuvrable Easily removed motor head with carrying handle, on/off switch and lockable suction hose connection Quickly accessible waste container, easy to use, suction hose does not come off during operating Eco flat pleated filter For alternate wet and dry pick up, high rate of retention, full capacity of container can be used Electro-mechanical monitoring of fluid level in container during wet pickup Automatic fan shutdown when max. capacity of 11 litres is reached, no overfloating possible Exhaust air filter, additional fine dust filter, microfilter for motor exhaust air, accessible from outside Easy to change Filter change indicator Optical indicator for filter and vacuum system Filter shaker cleans filter in situ Minimum maintenance Five-stage hygienic filtration during normal vacuuming Clean exhaust air Large filter access flap Easy filter inspection and rapid filter replacement without dirtying your hands Large on/off switches for pump and fan Convenient, separate spraying/extracting (2-step method) or spraying/extracting in a single pass (1-step method) Rubber-mounted bypass suction fan, sound-proof High suction power, separate cooling and suction airstreams for trouble-free wet and dry vacuum Separate, removable fresh water tank (5 litre) for spray extraction Fibre-deep cleaning of carpets and upholstery TÜV/GS approved (splash-water protected to IPX 4)
